

Position for Growth

Ethos Environmental Incorporated based in San Diego, CA, is a publicly traded company (ETEV.ob) and has been manufacturing **Ethos** for 10 years.

Until recently, Ethos products were only sold in bulk to Industrial accounts.

ECOMATES, a wholly owned subsidiary of Ethos Environmental, Inc., is now poised, with help from you, to bring Ethos to the residential consumer market in appropriate sized bottles.

Ethos is **NOT available in stores**, it is only available through ECOMATES independent distributors.

Ethos ECOMATES 70,000 square foot manufacturing facility has the **capacity to produce over 16 million bottles annually**, with room for expansion.

Plans are in place for **rapid international expansion**. Because global fuel demand will continue to escalate, we are confident our presence internationally will quickly dwarf that of North America.

The global seamless **ECOMATES compensation plan** is one of the most lucrative in the industry and **guarantees a 52% payout** of commissionable volume, with immediate income potential and **commissions paid on a weekly basis**.

Documented Results

FERIC, an internationally recognized, nonprofit, research and development organization, verified with a **SAE-Based Test Protocol** that **Ethos increases fuel efficiency and significantly reduces emissions**.

Southwest Research Institute an EPA recognized lab conducted **ASTM test protocols** which showed **Ethos increases lubricity of engine oil**.

Herguth Labs ash test showed Ethos leaves no engine residue.

Pursuant to the Magnuson-Moss Act, will not null or void vehicle warranty.

Ethos Environmental, Inc., the manufacturer of patent pending Ethos FR+ and Ethos FR, maintains a one million dollar product liability policy, and has over 10 years of product use history.

“ECOMATES leave their mark, but not a footprint. Are you doing your part for the future?”

ECOMATES is committed to making the environment a safer place for you and future generations. ECOMATES will plant trees with every auto ship order!

To green YOUR future contact:

Recession Proof Your Life

How many conversations have you had in the last month about the declining economy?

It is the dominant topic of our time!

Four mega trends have converged to make ECOMATES a **tidal wave of growth**:

1. **Volatile fuel prices.**
2. **Global demand for oil.**
3. **Environmental concerns.**
4. **Declining economic conditions.**

Are you among the record numbers looking for ways to replace, diversify, or **surpass their incomes?**

Right now is the perfect time to be among those helping to set up the **ECOMATES** consumer distribution networks in the United States, Canada and Israel.

Let us teach you how to create significant, recurring walk-away income for years to come!

"Dramatically **Reduced Fleet Emissions by 71%** in Six Years of Participation in the Ethos Program and as a result received San Diego County, CA **Earth Day Award**. In addition, using Ethos averaged fuel savings of 10.8% and **reduction in maintenance costs of 6%.**"

Jerry Schnitzius, Retired
General Manager
Allied Waste,

Joe Jones, Research Director
California Environmental Engineering.
CEE is EPA recognized, CARB certified.

Catch the Tidal Wave of Growth

To catapult to national brand-name recognition and market dominance, a product must be:

Necessary:

During a down turn in the economy, frivolous spending gets cut. With ECOMATES, consumers save money on fuel, something they have to buy!

Unique:

Patent Pending, available only through ECOMATES distributors. CARB certified lab testing, ASTM and SAE-based test protocols combine with industrial users prove that Ethos works!

Consumable:

Repeat purchasing, on a monthly basis, is critical to creating a lasting brand, and also to creating a long-term, permanent recurring income stream.

Timing is everything.
Join us before ECOMATES becomes a household name!

Combining the **right trends** with the **right product** leads to a tidal wave of growth that creates a vast number of wealthy entrepreneurs after they worked hard at the **right time**.

This has been illustrated so many times by so many companies that today this concept is common knowledge.

That time is NOW
- enroll today!
